KHSAA

For several months, the Board has been exploring alternatives to realign wrestling and restructure the postseason tournaments. The KHSAA will continue to gather information and present those findings to the Board of Control at the February meeting for possible implementation in the 2026-27 school year. The primary focus of alternatives being reviewed would sub-divide the current regions by creating another feeder round prior to the region tournaments, as the sport continues its recent growth throughout the state.

The Board decided to begin gathering information to further consider a potential 3-year trial run utilizing a class format with boys and girls soccer, as had been requested through presentations by multiple school administrators at recent board meetings. Since its inception as a KHSAA sport in 1972 for boys and 1992 for girls, there has been only one overall state champion in each gender. The board wants to gather further data, including enrollment figures for the 2025-26 school year, before making any decisions during this review. Previously, the board conducted a nearly two-year review of possible classes in baseball, but geographic travel concerns and school proximity led to the decision not to expand to classes at that time.

After lengthy consideration and discussion, the Board, citing the need to maintain geographic consistency, declined a request made at an earlier meeting by the Frankfort Independent Schools to move from the 11th Region to the 8th Region in team sports and corresponding moves in other sports.

Heard a report from membership meetings involving the 8th region schools, as those schools proposed revisions in the alignment of the existing 8th region schools. The KHSAA staff will work with the Designated Representatives of those schools to determine if there is consensus on a revised alignment for the 19 schools in that region for the team sports of basketball, baseball, softball, volleyball and soccer.
