AMENDMENT OF HENDERSON CITY-COUNTY COMPREHENSIVE PLAN GOALS AND OBJECTIVES:

Balancing Land Use - Goal 1): Wisely Plan for local land uses in appropriate locations to maximize quality design and minimize the adverse impacts of development.

New Objective k): Notwithstanding anything to the contrary in this Comprehensive Plan, Goal 1 above is deemed to be inconsistent with additional or new development of large scale solar energy systems providing offsite capacity ("LSSESOC"), commonly referred to as "solar farms" in Robards and the unincorporated areas of Henderson County. Such new or additional development should be prohibited as contrary to the community's aesthetic values, preservation of agricultural land, encouragement of diverse economic development, preservation of nearby property values, environmental protection, and health, safety and welfare in general.

Protecting Natural Systems - Goal 1) Protect and enhance the quality of natural environment while permitting appropriate development on suitable lands.

New Objective i): Notwithstanding anything to the contrary in this Comprehensive Plan, Goal 1 above is deemed to be inconsistent with additional or new development of large scale solar energy systems providing offsite capacity ("LSSESOC"), commonly referred to as "solar farms" in Robards and the unincorporated areas of Henderson County. Such new or additional development should be prohibited as contrary to the community's aesthetic values, preservation of agricultural land, encouragement of diverse economic development, preservation of nearby property values, environmental protection, and health, safety and welfare in general.

THE WORLD'S LIGHTEST WHEELCHAIR

For those of us—or our loved ones—who are finding our mobility slowing down and may need the use of a wheelchair, there's a remarkable breakthrough that's changing lives. The Featherweight Wheelchair, weighing just 13 pounds*, is nothing like the bulky, heavy models of the past that can weigh over 35 pounds. Imagine lifting your wheelchair in and out of a car without straining your back, gliding effortlessly through your garden, joining your family at the park, or going for a medical checkup, without the worry of fatigue. Why not take the first step toward renewed independence with this ultra-lightweight innovation?

In recent years, we've seen great advancements in mobility aids—from canes and walkers to rollators and scooters—all designed to help people stay active and independent. But until now, there hasn't been a truly revolutionary wheelchair. That's changed thanks to a team of engineers who've created something extraordinary: the world's lightest wheelchair, weighing only 13.5 pounds. Aptly named the Featherweight Wheelchair, this breakthrough has already been called a game-changer by those who use it.

The first thing you'll notice about the Featherweight is just how incredibly light it is. At only 13.5 pounds, it's easy for just about anyone to lift into a car, store at home, or take on the go. It's not only lightweight but also strong, stylish, and easy to maneuver. The lighter the chair, the easier it is to push, propel, and lift. With its sleek design and custom color options, the Featherweight Wheelchair isn't just practical—it's something you'll feel good about using every day.

★★★★★ Lightweight Wheelchair

It's so light weight that it's no problem to lift in and out of the back of my car. It's also easy to set up and collapse down. It is very compact and the wheels come off for compact packing alongside luggage or groceries etc. My Mom finds it very comfortable to ride in as well and enjoys the look. We both love it.
