## Fire

The large tobacco and stock barn on the Ezra Trent farm on

the Jenny Lillard Road was destroyed by fire Sunday night. The Trents say an old R.E.C.C. pole fell to the ground and hit a conveyor damaging it. It is not known how the fire started. however, the Trents believe sparks from the broken electric wires running through the barn could have ignited the hay.

# **PLAN**

third quarter of 2027. The 502 NPA is one of the original area codes, created with the establishment of the North American Numbering Plan (NANP) in 1947, to serve the entire state of Kentucky.

The NANPA will inform the Commission of the newly assigned area code within a week of the issuance of this order. The Commission will shortly thereafter issue additional press releases informing the public of the new area code.

The telecommunications industry and NANPA recommend a thirteen-month schedule for implementation of the overlay area code. Starting the implementation at least nineteen months prior to exhaust and adhering to the industry agreed-upon schedule will allow the new area code to be implemented six months prior to the projected exhaust of the 502 NPA. The proposed specific dates for the implementation schedule would be as follows:

#### **EVENT DATE**

Network Preparation Period June 1, 2026

Permissive 10-Digit Local Dialing and Customer Education Period (calls within the existing 502 NPA can be dialed using 7 or 10 digits) December 7, 2026

Mandatory 10-digit local dialing begins June 7, 2027 First code activation after Mandatory 10-digit local dialing begins (effective date for CO codes assigned from the new NPA) \* July 5, 2027

Total Implementation Interval Thirteen months

The PSC is an independent agency attached for administrative purposes to the Energy and Environment Cabinet. It regulates more than 1,100 gas, water, sewer, electric and telecommunication utilities operating in Kentucky and has approximately 90 employees.
