Flood-Proof Electrical Outlet Upgrade – Beattyville Main Street Lamp Posts
Beattyville Main Street/Lee County Tourism Kentucky

Issue Date: June 23, 2025
Proposal Due Date: July 14, 2025

Project Overview

Beattyville Main Street/Lee County Tourism is accepting sealed proposals from licensed electrical contractors for the flood-proofing and relocation of electrical outlets on approximately 40 lamp posts located along Main Street in downtown Beattyville. This project is being led by Beattyville Main Street in coordination with the City of Beattyville and Lee County Tourism. Project funded by RRG Community Foundation.

Scope of Work

- Disconnect and remove the existing electrical outlets currently installed at the base of approximately 40 lamp posts.
- Install new electrical outlets midway up each post, above known flood levels.
- All new outlets must be housed in weatherproof and waterproof enclosures rated for outdoor use.
- Ensure all new electrical work meets state and local code requirements.
- Properly dispose of any removed materials.
- Coordinate work to minimize disruption to pedestrian traffic and Main Street activities.
- Contractor must complete all work within 60 days of the bid being awarded.

Proposal Requirements

Each proposal must include:

- Contractor’s license and insurance documentation
- Estimated timeline for project completion
- Itemized cost estimate
- Warranty and service information
- At least two references for similar work completed

NOTICE OF PUBLIC MEETING

The Public Service Commission of Kentucky issued an order on June 26, 2025, scheduling public comment meetings to be held on July 7, 2025, at 6:00 p.m., Eastern Daylight Time, at the Bluegrass Community and Technical College, 164 Opportunity Way, Lexington, KY 40511 and on July 14, 2025, at 6:00 p.m., Eastern Daylight time, at Jefferson Community & Technical College: Southwest Campus Auditorium, 1000 Community College Dr, Louisville, KY 40272 for the purpose of hearing public comments regarding Kentucky Utilities Company and Louisville Gas and Electric Company Case No. 2025-00045, which is the Application for Certificates of Public Convenience and Necessity and Site Compatibility Certificates.

Notice of Kentucky Power Company’s Application for Approval of an Amended Environmental Compliance Plan, Recovery of Additional Costs Through Amendment of the Company’s Tariff E.S., and for All Regulatory Approvals Necessary to Continue Taking Capacity and Energy from its Coal-Fired Mitchell Plant After December 31, 2028

PLEASE TAKE NOTICE that Kentucky Power Company will file on or after June 30, 2025 an application with the Public Service Commission of Kentucky seeking approval of its amended environmental compliance plan to add Project 23 to Kentucky Power’s existing environmental compliance plan (Compliance Plan) and seeking all required regulatory approvals for Kentucky Power to make the investments necessary to continue taking capacity and energy from its Mitchell Plant after December 31, 2028. Kentucky Power also will seek approval of amendments to its Tariff E.S. (Environmental Surcharge) to reflect the Compliance Plan and to implement a revised Environmental Surcharge to recover the costs of the Compliance Plan. Kentucky Power’s application has been assigned case number 2025-00175.

Project 23 comprises the installation of a flue-gas desulfurization biological treatment system with ultrafiltration at the Mitchell Plant, which was installed and fully in-service as of August 4, 2024, and is currently being paid for entirely by Wheeling Power Company, the other 50% undivided owner of the plant. Project 23 is required for compliance with the Steam Electric Effluent Limitation Guidelines Rule issued by the United States Environmental Protection Agency in order to allow its Mitchell Plant to continue operating as a coal-fired generating facility after December 31, 2028.

The Environmental Surcharge rate changes monthly. The most recent Environmental Surcharge rate for the April 2025 expense month, which was billed in June 2025, was 6.0495% of revenue for residential customers and 10.2106% of revenue for all other classes. Using the April 2025 rate, the addition of Project 23 would result in an estimated increase in the Environmental Surcharge rate from 6.0495% to 8.1162% for residential customers and from 10.2106% to 13.6990% for all other classes.

Kentucky Power is proposing that the changes to the Environmental Surcharge associated with Project 23 go into effect with the January 2026 billing cycle, which begins December 31, 2025. The impact on the total monthly bill amount for residential customer classes is estimated to be an increase of 2.02%, and the impact on the total monthly bill amount for non-residential customer classes is estimated to be an increase of 1.99%. For the average residential customer using 1,189 kWh per month, the increase in the customer’s total monthly bill is estimated to be \$3.68.

Information regarding the effect on customer bills by customer classification is presented in the table below:

Customer Classification	Annual \$ Increase for Class	Annual Percent Change	Annual Average Usage (kWh)*	Monthly Average Usage (kWh)*	Monthly Average Customer Demand (kW)*	Current Monthly Average Bill \$*	Proposed Monthly Average Bill \$	Monthly \$ Increase	Monthly Percent Increase
