Book Review

Did you know that
sloths can hold their
breath for up to 40 min-
utes, while narwhals only
hold their breath for up to
25 minutes? Chinchillas
can grow up to 75 hairs
from one follicle compared
to humans which typical-
ly only grow a single hair
from each follicle!
I learned these facts and
so much more from read-
ing "The World's Most
Pointless Animals - Or
are they?" by Philip
Bunting. With
silly illustrations and
even sillier commentary
this author and il-
lustrator make learning
about animals so much

fun that even adults will
find Philip's humor and
facts entertaining. Learn
about interesting crea-
tures, like the blob fish,
in short and easy to un-
derstand paragraphs and
enjoy the quirkiness of
the author today! Can't
get enough of Philip Bun-
ting? Check out his other
two books we have in our
collection, "The World's
Most Atrocious* Fear-
some Animals : *Or are
they?" and "The World's
Most Ridiculous* Ani-
mals: *Or are they?". You
won't be disappointed!
