Christians are to live a new life in Christ and the church is to teach the things of Christ in truth. The church is not to conform to the world, but is to preach Jesus Christ. But what is that message? Simple. Someone who truly believes in Jesus Christ recognizes that sin is to be punished, because He took the punishment we should receive.

As the Apostle Paul said to the Ephesians, it is by grace that you are saved through faith. Not of yourselves for it is a gift of God.

For perspective, there are 100,000 nanometers in a single centimeter. Second, and more astonishingly, it takes only one influenza virus to make a person sick. If ever there was definitive proof that size is no indicator of effectiveness, this is it.
