CROWN

FROM PAGE B2

Including this year, only three of the past six Derby winners have tried the Preakness. Derby 151 winner Sovereignty is passing on the Preakness for 2 reasons. #1 Trainer Bill Mott is in lockstep with the owner Godolphin that it's just too quick of a turnaround to produce a maximum effort. #2 and the most relevant is the fact that Sovereignty will not be syndicated. He will remain a Godolphin homebred and be bred to Godolphin broodmares. Any outside breeding requests will require a hefty stud fee paid to Godolphin. Sovereignty will be retired to Godolphin's US based Jonabell Farm in Lexington. Sheik Mohammed isn't compelled by the dollars and sense of it all. One of the reasons they give their horses to American trainers like Bill Mott and Brad Cox is that they have a reputation for looking out for the horses best interests, not the pressures from the ownership and the industry. Godolphin is

more interested in the long term. Winning the Belmont, Travers and ultimately the Breeders Cup Classic are bigger priorities than running in the Preakness and compromising all three.

The question still remains...what's the solution to all of this? In my opinion, there are 2 possible scenarios to fix a problem that some argue isn't broken.

#1 The Derby, Preakness and the Belmont all are run on the first Saturdays in May, June and July respectively. The New York Racing Association (NYRA) would have to delay the Belmont a full month. The problem with this solution would be that the delay would have an impact on the Travers which is run in August at Saratoga as well as the Haskell Invitational on July 19th at Monmouth Park in New Jersey. I don't see NYRA doing this. They are in a comfortable zone on the calendar, just like

Churchill is with the Derby.

#2 This would require a serious leap of faith from the Maryland Jockey Club. Keep the Derby on the first Saturday in May and the Belmont stays on the first Saturday in June but we move the Preakness to the third leg and run it on the first Saturday in July and have a huge Maryland Independence Day celebration. The Haskell would probably have to be moved down a week or so to accommodate.

Purists of the sport will argue that it's fine just like it is, and any changes would cheapen the accomplishments achieved by 13 other horses. I maintain that if they don't make a change they are going to turn the Preakness into a Derby consolation prize and sprinkle in others that qualify for non-winners of two races lifetime. Now who's cheapening the race? The Triple Crown IS hard to win but unless common

sense prevails, it's going to become almost impossible because of the two-week spacing after the Derby and connections just taking a pass. Hopefully both NYRA and the Maryland Jockey Club will get off their traditional "high horses" and replace it with some good old fashioned common sense for the long-term health of the sport. Time to get the Triple Crown into the 21st century folks.

PREAKNESS **PROBABLES**

Just heard that Journalism will get the green light for the Preakness. Others expected to enter are Sandman, River Thames, Gosger, American Promise, Clever Again, Heart of Honor, Goal Oriented, Pay Billy and Bullard. Mike McCarthy stated that he sees no visible signs of fatigue from the Derby runner-up

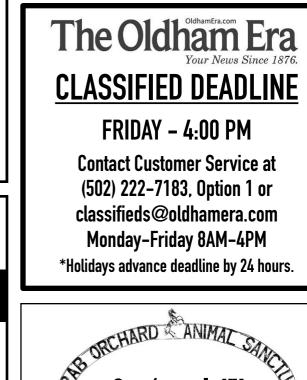

Maryland. He will be my overwhelming choice to win the Preakness.

NOTICE TO CUSTOMERS OF KENTUCKY UTILITIES COMPANY

RECOVERY BY ENVIRONMENTAL SURCHARGE OF KENTUCKY UTILITIES COMPANY'S 2025 ENVIRONMENTAL COMPLIANCE PLAN

PLEASE TAKE NOTICE that in an April 30, 2025 Application, Kentucky Utilities Company ("KU") is seeking approval by the Kentucky Public Service Commission ("Commission") in Case No. 2025-00105, pursuant to Kentucky Revised Statute 278.183, of an amended compliance plan ("2025 Plan"). (Collectively, KU's Application and supporting testimony and exhibits are KU's "tariff filing.") If approved, KU will begin recovering capital costs associated with a new pollution control facility in the 2025 Plan under KU's existing Electric Rate Schedule ECR (also known as the Environmental Surcharge tariff) through an increase in the environmental surcharge on customers' bills beginning in December 2025.

KU filed an application with the Commission on February 28, 2025, in Case No. 2025-00045 seeking approval to construct a selective catalytic reduction system at the Ghent generating station to reduce nitrogen oxide (NOx) emissions, which are a precursor to ozone. In Case No. 2025-00105, KU is seeking an order approving the 2025 Plan to recover the costs of this new pollution control facility through its Environmental Surcharge tariff. This project will help ensure ongoing compliance with regulations issued under the federal Clean Air Act as amended, including the National Ambient Air Quality Standards for ozone.

The estimated total capital cost of this new pollution control facility is \$152.3 million. Additionally, KU is requesting recovery of future incremental capital and operation and maintenance expenses associated with this new pollution control facility. KU is also asking to recover the cost of publishing this customer notice through the Environmental Surcharge over 12 months and to have Environmental Surcharge recovery of future Commission-approved administrative expenses, including customer notice costs.

Beginning in December 2025, the initial bill impact for KU's Group 1 customers is estimated to be a 0.01% increase with a maximum increase of 0.81% in 2029. Group 1 includes Rate Schedules Residential Service (RS), Residential Time-of-Day Energy Service (RTODE), Residential Time-of-Day Demand Service (RTODD), Volunteer Fire Department Service (VFD), All Electric School (AES), and all Lighting Rates (i.e., LS, RLS, LE, and TE).

RS and VFD customers using 1,085 kWh/month could expect a monthly increase of \$0.01 up to \$1.09. RTODE customers using 1,043 kWh/month could expect a monthly increase of \$0.01 up to \$1.14. RTODD customers using 987 kWh/month could expect a monthly increase of \$0.02 up to \$1.80. AES customers using 25,620 kWh/month could expect a monthly increase of \$0.30 up to \$24.28. LS and RLS customers could expect a monthly increase of \$0.00 up to \$0.12. LE customers using 2,473 kWh/month could expect a monthly increase of \$0.02 up to \$1.59. TE customers using 147 kWh/month could expect a monthly increase of \$0.00 up to \$0.15.

Beginning in December 2025, the initial bill impact for KU's Group 2 customers is estimated to be a 0.01% increase with a maximum increase of 1.10% in 2029. Group 2 includes Rate Schedules General Service (GS), General Time-of-Day Energy Service (GTODE), General Time-of-Day Demand Service (GTODD), Power Service (PS), Time-of-Day Secondary Service (TODS), Time-of-Day Primary Service (TODP), Retail Transmission Service (RTS), Fluctuating Load Service (FLS), and Outdoor Sports Lighting Service (OSL).

GS customers using 1,657 kWh/month could expect a monthly increase of \$0.03 up to \$2.41. GTODD customers using 19,652 kWh/month could expect a monthly increase of \$0.31 up to \$25.26. PS-Secondary customers using 30,434 kWh/month could expect a monthly increase of \$0.39 up to \$32.35. PS-Primary customers using 35,028 kWh/month could expect a monthly increase of \$0.45 up to \$36.82. TODS customers using 189,538 kWh/month could expect a monthly increase of \$1.54 up to \$126.82. TODP customers using 1,242,574 kWh/month could expect a monthly increase of \$8.25 up to \$678.42. RTS customers using 7,387,224 kWh/month could expect a monthly increase of \$38.91 up to \$3,199.31. FLS-Transmission customers using 44,229,667 kWh/month could expect a monthly increase of \$237.46 up to \$19,525.53. OSL-Secondary customers using 4,627 kWh/month could expect a monthly increase of \$0.17 up to \$13.87.

The Application described in this Notice is proposed by KU, but the Commission may issue an order resulting in an environmental surcharge for customers other than the environmental surcharge described in this Notice.

Comments regarding KU's 2025 Plan and Application may be submitted to the Commission through its website or by mail to the Public Service Commission, Post Office Box 615, Frankfort, Kentucky 40602.

Any person may submit a timely written request for intervention to the Public Service Commission, Post Office Box 615, Frankfort, Kentucky 40602, establishing the grounds for the request including the status and interest of the party. If the Commission does not receive a written request for intervention within thirty (30) days of the initial publication of this Notice, the Commission may take final action on the Application.

Any person may examine KU's tariff filing at the Commission's offices located at 211 Sower Boulevard, Frankfort, Kentucky, Monday through Friday, 8:00 a.m. to 4:30 p.m., or through the Commission's website at http://psc.ky.gov or KU's website (http://www.lge-ku.com) after KU makes its tariff filing on April 30, 2025. KU has requested a deviation from the requirement to make the tariff filing available at its office at One Quality Street, Lexington, Kentucky 40507. If the Commission denies that request, KU will make the tariff filing available at its office upon request by any person.
