BLESSING

FROM PAGE A1

"People living close to the earth and people living with animals—it's just part of our nature as human beings to want to enjoy them but also to protect them," she said.

Whether it's a cat, dog, horse, fish, or any other animal, the goal of the Blessing of the Animals is to celebrate the joy animals bring to people's lives and to bless them.

"Animals—especially our pets—bring great joy to us," said Dull. "We want to celebrate the joy that animals bring and bless them because they bless us so much."

The tradition of blessing animals is connected to the Catholic Feast of St. Francis of Assisi, an Italian mystic and poet who lived from

1181 to 1226. He founded the Franciscan Order, and according to Dull, both people and animals were drawn to him and his personality.

"When he would take time for personal prayer, he would go into the woods or in the country to pray," said Dull. "He found the animals, as well as people, were very attracted to him. They would come to him, and then people would say, 'Oh, he can even talk to the birds.'"

This resulted in several myths surrounding Francis and his relationship with animals, but over time, he became associated with the connection between humanity and all creatures.

"That's where the blessing of animals comes from because Saint Francis had such a strong belief that nature mirrors God, and because of that, he was a great lover of God's cre-

ation."

This year's Blessing will be special for St. Lawrence Catholic Church as members hope to see increased attendance from pet owners throughout the county, regardless of their church affiliation.

"We wanted to open it up, and we also felt like so many of our wonderful neighbors have animals," said Dull. "We felt like it was an opportunity for them to have their animals blessed but also for us to come together as a community, get to know each other, and share a love of our animals."

The event will likely see a variety of animals in attendance. In the past, cats, dogs, horses, rabbits, snakes, and more have participated.

"Any kind of animal is welcome," said Dull.

The only stipulations are that animals be contained in

some way, such as on a leash or in a carrier. For animals that cannot travel, owners are encouraged to bring a photo of the animal to receive the blessing through the photo.

The event will consist of a short prayer service, a sprinkling of holy water over the animals, and community fellowship with other pet lovers. Dull estimated that the service will last no more than 30 minutes, but attendees are invited to visit and fellowship afterward.

The blessing will take place outside the church, but in case of rain, the event will relocate to the pavilion beside the parking lot.

This year's event will also coincide with World Animal Day, observed annually on October 4.

"I can't think of anything that would be more special

on World Animal Day than to bless our animals and

celebrate the joy they bring into our lives," said Dull.
